

## Random Opinions, Observations, and Quotes, from 85 Years of Living

by Ron Cooper

*If opinions different than yours offend you, you probably shouldn't read any further.*

**"Let us not seek the Republican answer or the Democratic answer, but the right answer. Let us not see to fix the blame for the past. Let us accept our own responsibility for the future."** —John F. Kennedy (1917-1963), 35th American president

**"The Constitution is not a living organism. It's a legal document, and it says what it says and doesn't say what it doesn't say."** —Antonin Scalia (1936-2016), associate justice of the U.S. Supreme Court

**"There is no institution more vital to our nation's survival than the American family."** —Ronald Reagan

You can be pro-choice - but there are some things you don't have the choice to do. You can't rob people, you can't drive 100mph in a 55 zone, you can't murder people, unless it's an unborn baby.

Using marijuana you can lose about 5 points IQ. If you're very smart to start with, losing 5 points of your IQ isn't going to be too noticeable. If you're not that smart, losing 5 points of your IQ can determine if you can hold a job. Using other drugs can lower your IQ further. Drugs also mess with your emotional temperament and can add to your difficulty of doing a satisfactory job, which makes you less employable.

Some drugs will also negatively and permanently affect your children.

Democratic leadership wants to abolish the Christian religion and destroy the Constitution and freedom of religion and freedom of speech and even freedom of thought.

Much of Biden's incompetence is actually planned action that is so bad that it is easier to blame on incompetence.

If the electric grid is damaged, anything electric would cease to have power. The hybrid car would still be able to move because it still has a gasoline fueled charging system.

The Covid vaccine is neither safe nor effective.

Americans must stop funding China with trade and investment and the weapons pointed at us.

Electric cars are dangerous for America - The government controls the electricity, therefore a stupid government can control the electric cars at any time. The government can bring nearly all electric to a halt.

**"You know you're on the right side of history when the other side burns the flag, destroys property, and hates the Bill of Rights."** from Range Magazine

Truth is not a Democratic value.

If you marry and have children, chances are you will live a richer life.

Whether or not she realizes it, a girl's natural instinct is to have babies. A boy's is to get her in bed and to avoid responsibility for the outcome. The girl needs to make sure he marries her first - it's pretty simple.

Liberty and justice for all is not the standard the Democratic leadership goes by. They have no standard, everything and anything they can get away with is their standard.

How many of these mass-killers went to church the previous Sunday?

Freedom requires the respect for truth. Without truth, a discussion is a waste of time or meaningless entertainment.

The Chinese, Mexican cartels, and Democratic Administration, have opened our borders and are specializing in fentanyl murder.

The only real protections against idiots killing kids in schools is to arm the teachers and other school employees. Teachers need to be given the option of either a gun or tear-gas or just being helpless. Any other solution is expensive wishful thinking.

These tragedies will increase as the percent of non-Christians and non-patriots increases.

How do you grow up in the freest country in the world and hate it?

The Left in America teaches to not be happy.

Make the choice to be happy.

Secularism is the opposite of realism.

When you don't believe in God you believe in nothing or anything.

Love of country is very important, as is religion. Without both, the country is doomed to failure as is now happening.

There are only 2 races: the decent and the indecent.

**"I love my country, but I do not trust my government anymore."**

—Ernest Ramirez, who lost his son to the Pfizer Covid shot.

## Open Air Campaigners

In a time of darkness, distrust, discouragement, and fear people are searching for answers, but many are looking in all the wrong places.

Alcoholism, domestic violence, anger and hate, drug addiction and suicide are all currently at historic highs.

My name is Scott Domont and I have never before in my life felt such an urgency to share with people the answer of the hope that I have found in the person of Jesus Christ and his perfect work that he accomplished on the cross for any and all who turn to him and believe.

This year I left my job to be able to share the hope of the good news found in God's Word in a full time capacity.

Domont Family

Boardwalk outreach

Who are the 40% of the people who think that Biden's government is doing okay? Have they been living in a closet? Are they that uninformed? Do they have mental problems? Are they communist?

The Chinese people in some areas of study are the smartest people in the world. Because of the Chinese Communist type of government they live in they have to steal our technology in order to catch up and keep up with us.

The group of men that put together our constitution to form the most successful and freest government in history were obviously a superior group of mentality and character. The group of people that are destroying our country are obviously short in both intelligence and character.

We live in a world where deception is all over the place. There are people who, if they believe in a cause, will lie to further their cause. Deception is a part of our culture. It's important to be wise enough to recognize that.

If a person is committed to murdering babies, what will they not do?

Where we really need term limits is on the non-elected people who learn how to ignore the regular turnover of elected people and do whatever they want.

If the Left doesn't have a good response, they try to make it so anyone with a good argument isn't able to respond.

Choice of spouse is the most important decision you make in your life. You need to make a wise decision.

What you are taught at home determines what you will be in life. You have a brain. Your parents' responsibility is to teach you how to use it.

Don't make life easy for your children. Life is difficult. It is part of life.

The easy way to get people to give up their rights is to make them fear.

The Left scares people into shutting up.

What's important is decent and indecent.

Bad people with bad ideas dislike good people trying to do good things.  
—Archbishop Charles Chaput

The mission organization that we are working through is called Open Air Campaigners. Our goal is to take the Good News to others and help the Church to do the same. Primarily we are working with local churches in and around the state of Michigan, with occasional longer distance outreaches as there are open doors. However, we see the many needs right here in our own neighborhoods and we want to first and foremost help in our own community.

Going out to where the people are is our primary pattern of work, whether in campus outreach, kid's Bible clubs, vacation Bible schools, camps, high schools, public spaces, evangelism training or discipleship. If we don't go to them with the Good News, how will they hear?

If you would like to talk with someone about how you can have forgiveness from sins and hope in this life for the one that is to come, if you would like someone to pray for you, or, if you would like to talk about how we can come along side your church or youth group and help you and your members share their faith with others and reach out into your community please call, text or email me at the contact information below.

Together we can share with people the Answer they are really looking for, the One that brings life and life more abundantly!

Study history. Know the evils of communism.

This is a depressing time in our history for people who love this country. It's become evident that many of our leadership are corrupt, incompetent, or keep such a low profile that they won't get involved with very important issues.

It's foolhardy to blindly trust our government.

It takes a toll on patriotism when many of our leaders are frauds.

Statistics show, religious kids are happier. Patriots are happier.

Protect children's innocence.

Wokeism is a religion. Climate Change is a religion.

Has anyone noticed that Liz Chaney always has the same expression and way of talking. She took some really stupid positions that she had to know were not based on truth or common sense. Almost like she was under mind control. Her father was a specialist in mind control. Biden has similar mannerisms. Could he, in addition to being an accomplished liar and having very few morals, also be under some form of mind control? What other explanation is there for the really bad decisions he has made against our country??

**"No group in American history has done a worse job running this country than the new-liberals currently in charge. They're vicious, they're intolerant, and they're utterly corrupt. But above all, they are incompetent. In less than two years...they have run this country into the ground, wrecking our economy, desecrating our military, and opening the borders of the United States to more than five million lawbreakers. The destruction they have wrought is so profound, it's hard to describe. In a country with democratic elections, how could this party stay in power?"** —Tucker Carlson (b. 1969), after President Joe Biden's speech at Union Station on Nov. 2, 2022

Church families in multiple churches give strength to our country.

To my knowledge, all the so-called "conspiracy theories" regarding Covid and the Vaccines that we have printed have turned out to be true.
