

Random Opinions and Observations From 86 Years of Living.

by Ron Cooper

If opinions different than yours offend you, you probably shouldn't read any further.

Two ways to prevent killing babies before they are born: prevent abortion by law, and discourage abortion by choice.

The death and suffering created by illegal immigrants should be blamed on Biden and the entire Democratic Party—every Democratic rep should be held responsible and also the people who voted for them.

The Democratic Party is destroying our country from within. Anyone who is part of the Democratic Party with a lick of sense should get out, as I did.

70% of Christian marriages stay married.

Freedom of speech is important especially the speech you disagreement with.

Most people want someone else to protect and fight for them. If they get to the point where they are forced to defend themselves it is often too late.

If you're concerned about the mental health of your children, get married before you have them.

from the Babylon Bee:

Biden says he can't remember a single time when his memory has failed him.

Biden's policies are destroying the USA from within. It's obvious, it's on purpose. It's hard to understand his ability to do this but he is being supported by people and groups that want to destroy our country. He is a traitor to this country. If the voters don't get him out of office, the USA is doomed. Anyone who denies this is unbelievably uninformed.

Trade with our local businesses, they pay taxes here, they pay wages here, they support nonprofits here, they deserve our business.

Our CIA needs to return to intelligence gathering only and to quit interfering in other people's government. History has shown they are usually wrong in that respect and cause a lot of hate for the USA.

Highly educated people tend to function as a group of their own that does not relate to the practicality of the real world. They are a danger to good government that needs to operate in the practical application of society.

The media that are saying that Trump is terrible are ignoring or purposefully misrepresenting what he actually did, or tried to do, while he was in office.

The Green New Deal is so stupid that any compromise with it is just less stupid. The whole thing is ridiculously misguided.

The Ultimate Experience:

No experience you choose to have will be as significant or challenging or fulfilling as the choice to raise children. Why put that choice off? For the ultimate experience, get married first—but be choosy, for who you pick for your mate will affect the lives of you and your children forever.

For the ultimate love, the love that lasts forever is the love that God offers through Jesus.

"It's easy to fool someone. It's hard to convince someone that they have been fooled."
Elon Musk

Be grateful that you're an American.

Biden administration has allowed almost 100 billion dollars to flow to Iran in the last 3 years which is fueling the very terrorists who are attacking Israel and America.
Senator Ted Cruz - May 3, 2023

We have been lied to about every aspect of history.

There are just a few people in control of the media.

From information I have been able to look at from various sources having your children vaccinated is more dangerous for them than not having them vaccinated.

Especially having them vaccinated as babies.

I have also concluded that you cannot depend on the pharmaceutical companies or our government for accurate information.

Studies show that using marijuana as a teenager will affect the brain of your children even if you quit using it before having children. How much and how noticeable is determined by how much and how long you used it.

This is a statistic left out by the people selling it to you.

We are going to have a group of people unable to function in our free society without help. They will probably depend on the government and taxpayers for help getting through life.

CDC, the best that can be said for them is that they are incompetent and corrupt. They may actually be treasonous!

If you try to be content with your life you will be healthier and happier.

If one person makes an every day effort to have a good marriage the marriage will probably be a good one. If both people make the effort to have a good marriage it will be a great one.

Lying to yourself is more dangerous than lying to someone else.

You don't need to be ashamed for having been a Democrat. You should be ashamed for still being a Democrat.

College students are demonstrating their stupidity by demonstrating in support of Hamas.

Members of the Senate and Congress are demonstrating their dishonesty by doing the same.

We need to elect people who love our country and have the wisdom and courage to make decisions that are best for our country.

A lot of people who have been fooled would rather continue to be fooled than admit that they have been fooled.

12/23 Biden Administration distributed 65 million condoms globally as part of Climate Change Solutions.
Daily Caller

If you are not valued, do not be angry, it means you are in the wrong place. Those who know your value are those who appreciate you.

Biden has surrounded himself with morally corrupt people which indicates that he is morally corrupt.

If you vote knowingly for corrupt people does that make you a corrupt person?

Others are not to blame for my unhappiness.
Dennis Prager

People who are ungrateful are not happy.

Sexually confused people in most cases, had a parent that did not teach respect for the other parent.

Most people have a mental problem or issue of some kind - it might not be noticeable but it's there. With some people it can be obvious. It's normal and part of our personality. Some people are very successful because of it and some people lead troubling lives because of it. People need to find a mate who doesn't have a problem with it. Otherwise they will forever try to change part of who their mate is. It's the job of mental health providers who have mental problems of their own to address or change the inherited or possibly learned very young mental

problem of people who's problem is obvious. It's a difficult task without a lot of hope for success.

If a person's mental problem leads them to drugs which they come addicted to, it will be difficult to break the addiction because you will have to change a person's mental issue that led them to the addiction to start with.

A person who becomes addicted did it to themselves and has to become unaddicted themselves. The longer they are addicted the harder the addiction becomes to break because the addiction actually changes the brain.

It's been documented over and over that Joe Biden is a habitual liar and a dishonest, conniving, shameless traitor to our country. In addition to being incompetent and reckless, what is hard to understand is how has he been able to get away with it so long. Many people in the Democratic Party have overlooked the obvious over many years, starting with the really stupid people of Delaware who re-elected him over and over. Knowing what is now common knowledge, how could anyone vote for him over just about anyone running against him?

According to recent surveys, more than 1/2 of Democrats think that it's a good idea to have men who are pretending to be women allowed to participate on women's sport teams.

Whenever you use drugs to adjust to life, the side effects are often worse than facing life as it is.

From Bob Popper, Senior Attorney and Election Law Initiative Director, Judicial Watch:

It is eminently clear from where I sit that Leftist groups and political operatives are pushing harder than ever to radically alter U.S. election procedures in advance of the 2024 general election.

And their intention is clear: To demolish any safeguard design to ensure election integrity.

From The Verdict, December 2023:

"These Biden corruption issues have created a national security crisis, led to a border invasion, thoroughly corrupted the Justice Department and other federal agencies, and have resulted in wildly abusive efforts to jail former President Trump and other innocents."

—Judicial Watch President Tom Fitton

"The Biden administration's refusal to provide Secret Service protection to Mr. Kennedy is dangerous and vindictive," said Judicial Watch President Tom Fitton

"The costly Biden bank bailouts have all the hallmarks of political favoritism and government overreach. Certainly, the fact that the responsible Biden officials are hiding documents about the issue suggests that they have something to hide."

—Judicial Watch President Tom Fitton

Lawsuit Uncovers at Least Six Deaths Possibly Linked to Abortion Drug

"The revelations in the records released today explain why the Biden administration is so desperate to bury this damning information—this drug is potentially dangerous to the mothers as well as the intended victims, the unborn babies."

—Judicial Watch President Tom Fitton

Doing it your way won't get you to heaven.

God gives the opportunity, you can accept it or not accept it. It's your choice.

In this country, you can be marginally successful and still do okay.

They ought to make vehicles with a front seat that is comfortable sitting in the center so a girl can sit next to her guy comfortably.

Electric vehicles would be more popular if they had a noise-maker on them that gave them a nice exhaust sound. Some guys will buy one pickup over another because it has a tough exhaust sound.

I know someone who worked in Grand Rapids and lived in Norton Shores who bought a electric car and had to come straight home after work, otherwise she would run out of electric before they got home. It did help with after work spending at a G.R. mall.
