

Random Opinions and Observations
From 87 Years of Living

by Ron Cooper
If opinions different than yours offend you, you probably shouldn't read any further.

Women are designed to have babies. Their minds are programmed to nurture children and grand-babies.

That's their natural function, all other uses are secondary to their ultimate fulfilment and contentment and happiness in life.

Ideally, they get married first.
If a woman is unable to have children then a secondary purpose needs to become their primary purpose.

All people need to have a purpose.

Love is the answer, but own a gun just in case.

--Sen. John Kennedy

If government says you shouldn't have one, buy two.

--Sen. John Kennedy

Cannabis use negatively affects the brain in many ways, including your ability to manage your emotions.

60% of babies health problems are from the father's sperm and often from his use of drugs.

Medical errors are the third leading cause of death in the USA.

--The Epoch Times 2/12/25

I have learned from experience that the greater part of our happiness or misery depends upon our dispositions and not on our circumstances.

--Martha Washington, the very First Lady of the United States.

If your family was important to you and if you're paying wife and child support and your wife has another guy sleeping in your bed with her and you're paying the expenses, suicide is a reasonable solution.

Be careful who you marry. Marrying the wrong person can leave you with unsolveable problems--marrying the right person will give you the ultimate experience in life.

Most guys don't want to share their girlfriend with another guy. That's why a girl that is easy is normally not preferred for a permanent relationship.

Most guys are predators. Their brains are in their pants and their girlfriends are prey.

Don't be reckless with the life of your child. You don't have to make a choice of whether or not to kill your baby if you don't get pregnant to start with.

Every girl has what he wants. Make him marry you first. If he is not interested in marrying you he is trouble. If you get pregnant he will most likely leave you with your problem.

Eliminate a serious situation. Don't get pregnant to start with. Any girl with average intelligence knows how not to get pregnant.

The Trump administration with Musk and all, show that very capable and patriotic leaders have flaws. Only their wives are aware of all their flaws.

You will feel good when you do good.

Young people need meaning in their lives. Religion, God and love of country is a good place to start.

A lot of physical and mental problems people have is the result of their drug use or

their parents' drug use. Avoiding drugs can prevent future problems that will affect you and your income for the rest of your life.

Recent polls show that over half of Democrats believe that assassinating President Trump would be at least somewhat justified, and about half said the same about Musk. 50% of Democrats deem it at least somewhat acceptable to destroy a Tesla dealership.

About 2/3 of the people will go along with what the government tells them or anyone in authority even when they are aware that other capable and knowledgeable people disagree. Why? People are fearful of dealing with the consequence of not following what the people in authority tell them. People in general don't have the courage to resist.

It's good for people to have a purpose greater than themselves.

Marriage and church attendance give meaning to life.

Love is the answer.

Common sense is legal.

Enjoy grandkids while young by marrying young.

Killing your unborn baby is by some people an empowering choice. I suppose that killing anybody could also be considered an empowering choice.

Children need to be proud of their parents.

Your past doesn't define your future. You do!
--Aisha Bowe

The evil don't admit that they did anything wrong.

There can be a fine or subtle line between success and failure. If you hire successful people you have a better chance for them to help you become successful because they have probably already mastered the fine line between success and failure.

You can't change your life up to now, but you can start now to change your future life.

The Democratic party has abandoned the premise that polictical problems must be solved non-violently.

We have a wonderful country, unfortunately the wrong people do get in positions of authority and our responsibility as voters is to get them removed.

Abortion is killing a baby before it is born. Some people call it love?

Sometimes people with a strong faith don't bring their own kids to know their faith. It's an individual decision. They're not going to Heaven on your shirttails.

A trade war with China is preferable to a shooting war.

China has been at war with us for years. Their plan is to do us in from within, and they have been gaining ground. They have many Americans convinced that socialism and communism is okay.

208 Democrats voted against a law that would SECURE our elections and REMOVE illegal aliens from our nation's voter roles.

It's 3:00 in the morning and this paper needs to be sent to the printer and I am out of opinions and observations.

No government in history has had the success of ours. The framers of our Constitution have stated that for our government to survive our voters must be moral, informed Christians, otherwise our government will fail.

If you want to do your part for your country you need to be an informed voter.

Learn the Christian moral values and live by them, even if you're not a Christian. This country will collapse from within as the people in this country get away from those moral values as we are already witnessing at this time.

Governor Ron DeSantis published:

Whatever you may choose to call it, the left wants to take it from you: Your right to speak your mind. Your right to practice your faith. Your right to protect and defend your home and family. Your right to own and operate a business. Your right to educate your child.

The left is currently doing everything they can to take these God-given and Constitutional rights away from you, and it isn't an accident. This is their new America!

A Thought for Today

Mar. 15, 2025

By Connie Jarka

Winter in Michigan can be a challenge
Chilling cold and snow to boot;
Spring seems to come at its own time
Many days waiting for its warmer winds to root.

Yesterday was a tease with a warm day
Many signs of spring yet to come;
I still wait for the robin to arrive, and early mornings sing to me,
The radiant red Cardinal will then turn that 'hello there',
bright red spring message of his own,
Vines may poke through the left-over snow drift,
And the first good rain of spring like last night signals winter may be done.

However, there is one big sign around this old place
That brings Spring dreams to me;
When I see my husband head to the garage
And he starts the Old 1953 Oliver tractor, and it hums its own tune,
what a beautiful thing to hear and see...

This winter one time he went out and tried to get it to start
It was cold and I had little doubt;
And I was right it didn't go
And he spent the rest of winter then without.

I knew he was worried it would not go
I knew this is the other love of his life;
But I also had Faith that it would work as Spring came closer
Just an inkling after 56 years as his wife.

So some say little things don't count
Life is wicked and does not bend;
But I stepped out through the slider to the deck
And I listened and watched him as he backed it out of the old falling down loved but leaning garage yesterday,
that old grin on his face, as if another year, he had found his old friend.

Might be another while before we get it to the garden
He will till and we will plant again;
One more chance for us to fill the canner with survival
For another year here at the old blueberry farm,
Me, my love, and his other tractor best friend.

May Spring bring you all peace and love
And may Easter be the one that you remember;
For as fast as it will come and go
We will all take it inside again
When we all greet another September.

so and be
and keep humming
