

Long COVID or Vaccine Injured?

By Mariann Cooper

Many people have been injured by the COVID-19 vaccines, and some have symptoms after having been sick with COVID. If you’re one of those people, you may be interested in the findings of some doctors/scientists.

The injuries from the spike protein will never be eradicated, but you can improve some of the problems. This new mRNA technology has most people, including doctors, not knowing what to do for the problems. There’s one man on Facebook named “Slowly Fading” who has been to many different specialists and doctors, but his muscles keep fading away even after he exercises. He doesn’t have much hope anymore because nothing seems to help. His bank account is drained and he can no longer work. He blames the COVID shots for his injuries, and there’s no help available.

If you think you were injured from the shots, it should be reported to VAERS (Vaccine Adverse Event Reporting System). They have a database set up for this.

There are doctors who have developed

protocols to help alleviate the spike protein and the problems from the shots. One of these is Dr. Peter McCullough. This is his protocol to detox from the spike protein:

- 1. Nattokinase (2,000 FU, twice daily)
- 2. Bromelain (500 mg, once daily)
- 3. Curcumin (500 mg, twice daily)

“This should be taken daily for 3 months if you had no COVID shots, or a full year or more if you did have the COVID shots. “Additional products can be added, including NAC, IVM (Ivermectin), HCQ (Hydroxychloroquine), fluvoxamine, low-dose naltrexone, and blood thinners, depending on the clinical evaluation and the syndrome. The therapeutic objective is to start treatment and allow the body to clear Spike and its fragments with the natural reticuloendothelial system. I believe this triple combination is the best approach.”

“Important safety warnings include bleeding for those on blood thinners or who have bleeding disorders (e.g., hemophilia), soy allergy, allergies to any component of the combination, and gastrointestinal intolerance. Women of childbearing potential without contraception, pregnant, breastfeeding, and

children should not take this combination unless directed by a doctor.”

Don’t expect instant results!

Dr Peter McCullough, won first place on Preprints.org (2) for a study he co-authored on vaccine-induced myocarditis. Here is a website if you’d like to read more: <https://covid19.onedaymd.com/2023/03/dr-peter-mccullough-prescription-and.html>

Another protocol comes from Dr. Bryan Ardis who has found that Nicotine Patches help get rid of the Spike Protein. I don’t know if it was this doctor or another, he said he would wear a Nicotine Patch every day for the rest of his life. You can follow him at www.drardisshow.com

Dr. William Makis has a cancer protocol with over a thousand patients through the internet at: firstmedinc.com/dr-william-makis-cancer-protocols/

There are many people on Facebook trying to solve their problems, including cancer, natural healing, etc. Diet is important, too. The best help you can get is through prayer. God bless you.

HEADLINES

submitted by Mariann Cooper

If you’re still getting COVID boosters, maybe you should read some of the following headlines. The true information on the effects of Covid shots has been kept out of the news, unless you were purposely looking and researching on the internet. The EXCESS death rate around the world has increased exponentially, turbo cancers are up 330%, heart attacks and neurological injuries are at an all-time high. Those shots destroyed your natural God-given immune system, so wherever your body was weak is where the problems struck.

Some of the sources of the headlines are listed, but others you may have to search the internet for, but BEWARE, you will get more than you’re looking for.
